Statistical Abstract of Higher Education in North Carolina, 1968-69.
North Carolina State Board of Higher Education, Raleigh.
Report No-RR-4-69
Pub Date Apr 69
Note-144p.
EDRS Price MF-$0.75 HC-$7.30
Descriptors-Admission (School), Degrees (Titles), Educational Finance, Enrollment, Extension Education, Faculty, *Higher Education, Libraries, *Organization, *Planning, Student Costs, Transfer Students
Identifiers-*North Carolina

This report contains statistical data provided by public and private colleges and universities in North Carolina on: current enrollment, enrollment trends, undergraduate transfers, degrees conferred, faculty and staff, library resources, extension activities, student costs, admissions and financial aid, student housing, and financial statistics. Tables and figures make up the bulk of this second publication in the Board of Higher Education's annual series of comprehensive statistical reports on higher education in North Carolina. (JS)

RESEARCH REPORT 4-69 (APRIL 1969)
NORTH CAROLINA BOARD OF HIGHER EDUCATION
RALEIGH, NORTH CAROLINA

SUMMARY HIGHLIGHTS

1. CURRENT ENROLLMENT - In fall 1968 a total of 126,839 students were enrolled in North Carolina colleges and universities. Of this total 79,076 students or 62.3 percent were enrolled in public institutions and 47,763 or 37.7 percent in private institutions.

2. ENROLLMENT TRENDS - The total 1968 college enrollment increased by 5.2 percent over the 1967 figure. While the enrollment in the public institutions increased 7.3 percent, the enrollment in the private institutions increased 1.9 percent.

3. UNDERGRADUATE TRANSFERS - More than 7,000 new undergraduate transfer students were enrolled in North Carolina colleges and universities, public and private, in fall 1968. One-third of the new transfers were from out-of-state institutions and the remainder from colleges in the state.

4. DEGREES CONFERRED - A total of 14,532 bachelor's degrees, 625 first professional degrees, 2,815 master's degrees, and 504 doctor's degrees were granted by North Carolina colleges and universities during the year ending June 30, 1968.

5. FACULTY AND STAFF - In fall 1968 the percentage of full-time faculty members with doctor's degrees varied from 81 to 16 among public senior institutions and from 73 to 15 among private senior institutions.

6. LIBRARY RESOURCES - The number of bound volumes per full-time equivalent student at private senior institutions (106.9) is nearly twice that at public senior institutions (59.2).

7. EXTENSION ACTIVITIES - Course registrations totaled 22,000 students in military centers and off-campus credit courses offered by public senior institutions in 1967-68.

8. STUDENT COSTS - Tuition charges for the 1968-69 academic year for North Carolina students to attend public senior institutions ranges from $100 to $400. Tuition charges to attend private senior institutions ranges from $450 to $1,600.

9. ADMISSIONS AND FINANCIAL AID - The median Scholastic Aptitude Test score of fall 1968 entering freshmen in public senior institutions was 463 on the verbal test and 502 on the mathematical test for a combined score of 965.

10. STUDENT HOUSING - One-half of the total students in public senior institutions were housed in college-owned dormitories in fall 1968.

11. FINANCIAL STATISTICS - While 26 percent of the current funds revenue in private senior institutions came from student tuition and fees, only 10 percent of the revenue in public senior institutions came from this source. This percentage of revenue from tuition and fees varies widely among private senior institutions, ranging from 13 to 61 percent.

PREFACE

Accurate information is basic to the planning and coordination of a sound and effective statewide system of higher education. This report is the second in the Board's annual series of comprehensive statistical reports on higher education in North Carolina. Information is provided in detail in 11 broad areas ranging from enrollment to student costs. Two new sections on student housing and financial statistics were included this year.

The information presented in the report should be useful to planners and decision-makers in the colleges and universities, state agencies and the General Assembly, and to other interested persons and groups.

This report is largely the result of the compilation and organization of statistical data provided by each institution to the Board of Higher Education or through the Higher Education General Information Survey to the United States Office of Education. Acknowledgement is extended to the institutions of higher education in North Carolina, public and private, which cooperated in providing statistical materials.

Acknowledgement is made also to staff members of the Board of Higher Education for their analyses of data that made this publication possible. In particular, special mention is due Eun Sul Lee, the Board's director of statistical services, under whose direction the report was prepared.

Cameron West
Director of Higher Education

SECTION I

CURRENT ENROLLMENT

This section presents statistics on the number and detailed characteristics of the students enrolled in North Carolina colleges and universities. In fall 1968 a total of 126,839 students were enrolled in colleges and universities in North Carolina. Of this total 79,076 students or 62.3 percent were enrolled in public institutions and 47,763 or 37.7 percent in private institutions.

The total enrollment figure in this report includes students enrolled in public senior institutions, military centers, college transfer programs in community colleges, private senior and junior colleges, and seminary and Bible colleges. An assessment of the total students enrolled in all types of education beyond high school, including technical and vocational programs, appeared in Higher Education in North Carolina, (Vol. IV, No. 4, March 7, 1969).

Some general characteristics of college enrollment by public and private institutions are illustrated in Figure 2, and more information is summarized in Table I. Detailed information by institution is presented in Tables II, III, and IV. Full-time equivalent enrollment which accounts for part-time students is shown by institution in Table V.

The geographic origin of undergraduate students by type of institution is presented in Tables VI and VII. Further detailed information about the origin of undergraduate students at public senior institutions is given in Tables VIII and IX. The geographic origin is listed by county for North Carolina students and by state for out-of-state students. An analysis of the geographic origins of undergraduate students in the

16 public senior institutions is graphically presented in Figure 3. The same information for other types of institutions appears in Table X.

Graduate and first professional enrollment is presented by sex and full-time and part-time status in Table XI. Information about students enrolled for advanced degrees by field of study is shown in Tables XII and XIII. These two detailed tables are especially useful in assessing the expected advanced degree production in various fields within a year. Table XIV shows summer session enrollment by institution and level.

* Terminal occupational studies programs not chiefly creditable toward a bachelor's degree.
** Fifth-Year includes a student who is in a program requiring five years of study for a bachelor's degree (e.g., architecture, engineering).
*** First Professional includes a student who is in a professional school or program (law, medicine, dentistry, theology, etc.) which requires at least two or more academic years of previous college work for entrance.
**** Since it is possible for students to earn a degree in three years at Asheville-Biltmore, there is no Sophomore classification used.
a/ The entire community college system enrolls 12,832 students in two-year technical programs and 6,908 students in one-year vocational programs in addition to the college parallel students included in the table.

SECTION II

ENROLLMENT TRENDS

This section presents some data concerning enrollment trends. At the beginning of this century North Carolina had only about 5,000 college students. The number of students steadily increased since then and reached 31,946 in 1940 and 46,598 in 1947. The growth was interrupted during the four-year period 1948 to 1951 when the enrollment dropped from 46,039 to 40,708. Since then there has been an extraordinary upsurge in college enrollment. In fall 1968 it reached 126,839, more than three times the enrollment in 1951.

This upsurge in college enrollment is due in part to the high birth rates following World War II. The rate of increase in college enrollment reached the highest point in 1965 both in public and private institutions. However, it is to be noted that the rate of increase has slackened since 1965. The rate of increase was 5.2 percent in 1968, while it was 12.2 percent in 1965.

Enrollment trends in North Carolina colleges and universities since 1900 are presented in Table XV. Table XVI shows the number of students by institution since 1960. The rate of increase varies from one institution to another. In Figure 4 the growth of enrollment at the public senior institutions is plotted by institution on a semilogarithmic scale in which the rate growth is directly comparable.

Other important trends are also presented. Trends by in-state and out-of-state residence status are shown in Figure 5 and Tables XVII and XVIII. These trends indicate that the number of North Carolina students attending private institutions in the state has been stabilized. Table XIX shows enrollment trends by level of instruction. Trends in geographic origin of undergraduate students are shown in Tables XX and XXI.

SECTION III

UNDERGRADUATE TRANSFERS

This section concerns undergraduate transfers. The information pertains to students who transfer within the state and those who transfer from other states to North Carolina institutions. Transfers from North Carolina institutions to other states are not included. Information concerning transfers for the past three years is summarized in Table XXII.

Figure 6 shows the flow of transfers between and within each of the four types of institutions in the state and from institutions in other states in fall 1968. The actual number by sex is shown in Table XXIII. A comparison of the flow of transfers with its counterflow reveals that the community colleges received as many transfers as they sent to other types of institutions. The public senior institutions received about twice as many transfers from private senior colleges as they sent to the private senior colleges.

Detailed information on the origin and destination of transfers in the state is presented in Table XXIV (from two-year to senior institutions), Table XXV (among senior institutions), Table XXVI (from senior to two-year colleges), and Table XXVII (among two-year institutions). From figures in these tables a comparison of the numbers of in-transfers and out-transfers of any given institution can be made. Transfers from other states to various types of North Carolina institutions are shown in Table XXVIII. More than one-third of the total transfers from other states were from two neighboring states, Virginia and South Carolina.

A detailed report on this subject was published in Higher Education in North Carolina (Vol. IV, No. 3, February 12, 1969.)

SECTION IV

DEGREES CONFERRED

This section pertains to earned degrees conferred by North Carolina senior colleges and universities during the 12-month period ending June 30, 1968. Information presented concerns only bachelor's or higher degrees. Degrees or certificates awarded upon completion of less than four years of work beyond high school are not included.

North Carolina public and private senior colleges and universities conferred the largest number of degrees in their history during 1967-68. A total of 18,476 degrees were conferred by the 42 senior institutions of higher education (excluding Bible colleges and Seminary). This represents an increase of 12 percent over the number granted during the previous year. The number of degrees conferred increased at all degree levels except at the first professional level (see Figure 7). The number and percent change at each level are presented by institution in Table XXIX and by field of study in Table XXX.

A comparison of public and private institutions as to their degree production in each field of study is presented in Table XXXI. This comparison at the bachelor's level is graphically shown in Figure 8.

More detailed information by institution, sex, and field of study is presented in Table XXXII for bachelor's degrees, in Table XXXIII for first professional degrees, and in Table XXXIV for master's and doctor's degrees. A report on this subject was published in Higher Education in North Carolina (Vol. VI, No. 1, January 10, 1969).

Figure 7. Number of Degrees Conferred by North Carolina Public and Private Colleges and Universities, 1966-67 and 1967-68

SECTION V

FACULTY AND STAFF

This section deals with faculty and staff in North Carolina senior colleges and universities. Table XXXV shows the number of employed personnel by primary function and status of employees in fall 1968. In this table, all professional and non-professional employees are classified by full-time and part-time status under the six functional categories: (1) resident instruction and departmental research, (2) organized research, (3) library, (4) extension and public services, (5) auxiliary enterprises and elementary and secondary schools operated by institutions, and (6) all other employees.

In subsequent tables, faculty refers to the professional personnel in the first two functional categories (resident instruction and departmental and organized research) excluding academic deans. Academic rank of full-time faculty members is presented in Table XXXVI. The percent distribution by academic rank in public and private senior institutions in 1967 and 1968 is compared in Figure 9. In Table XXXVII full-time faculty members are classified by sex and academic rank. Highest degrees held by full-time faculty members are shown in Table XXXVIII by academic rank. The percentage of full-time faculty with doctor's degrees in public senior institutions is shown in Figure 10.

Information concerning retention and replacement of full-time faculty members between fall 1967 and fall 1968 is presented in Tables XXXIX, XL, and XLI. Average salaries of full-time faculty members in public and private senior institutions are shown in Table XLII. Junior staff and faculty members without academic rank are not included in the computation of these averages.

Figure 9. Percent Distribution of Full-Time Faculty in North Carolina Senior Colleges and Universities by Academic Rank, 1967 and 1968

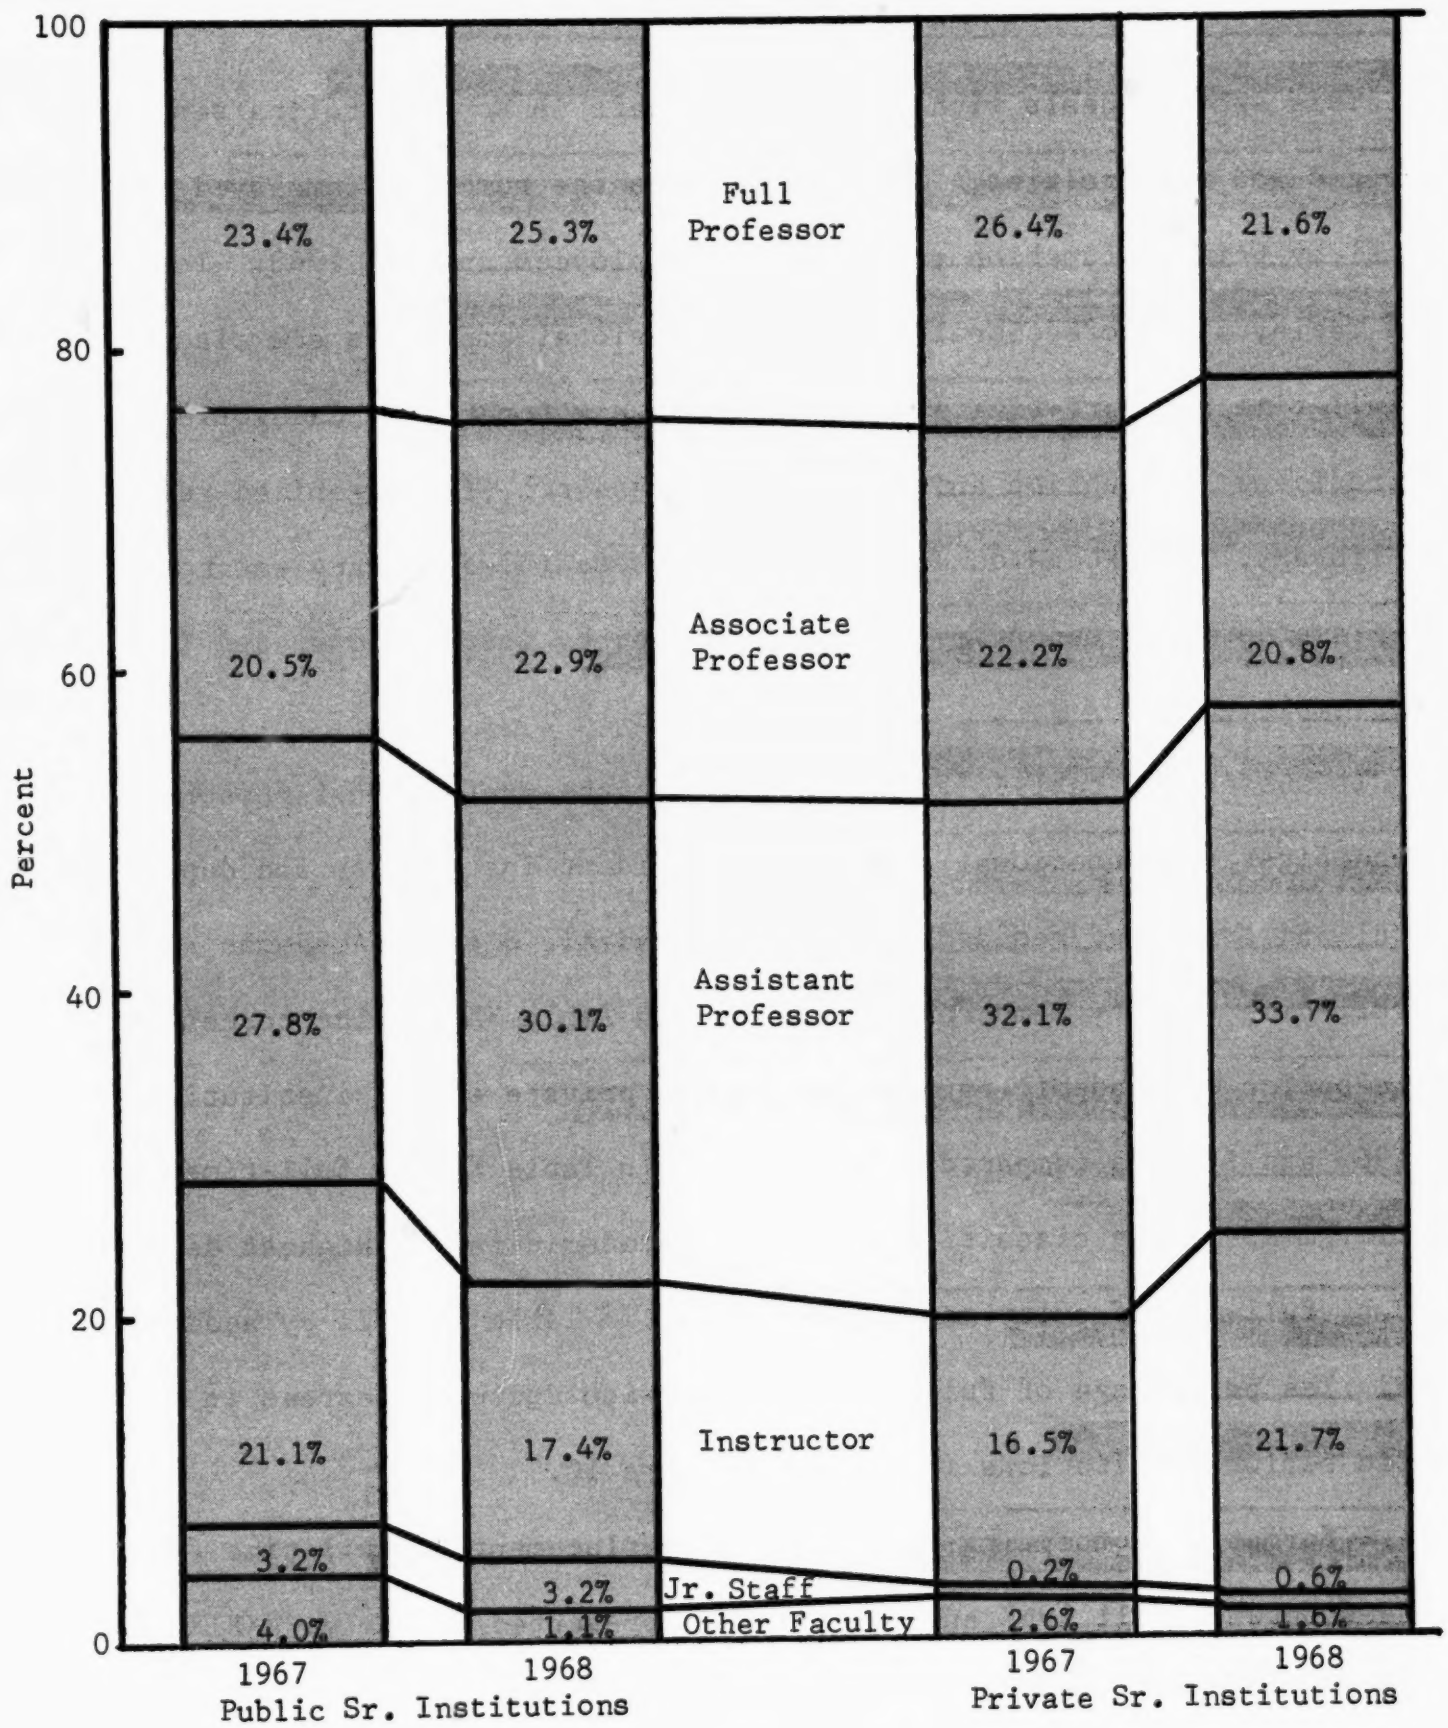

Figure 10. Percentage of Full-Time Faculty with Doctor's Degrees in North Carolina Public Senior Colleges and Universities, Fall 1967 and Fall 1968

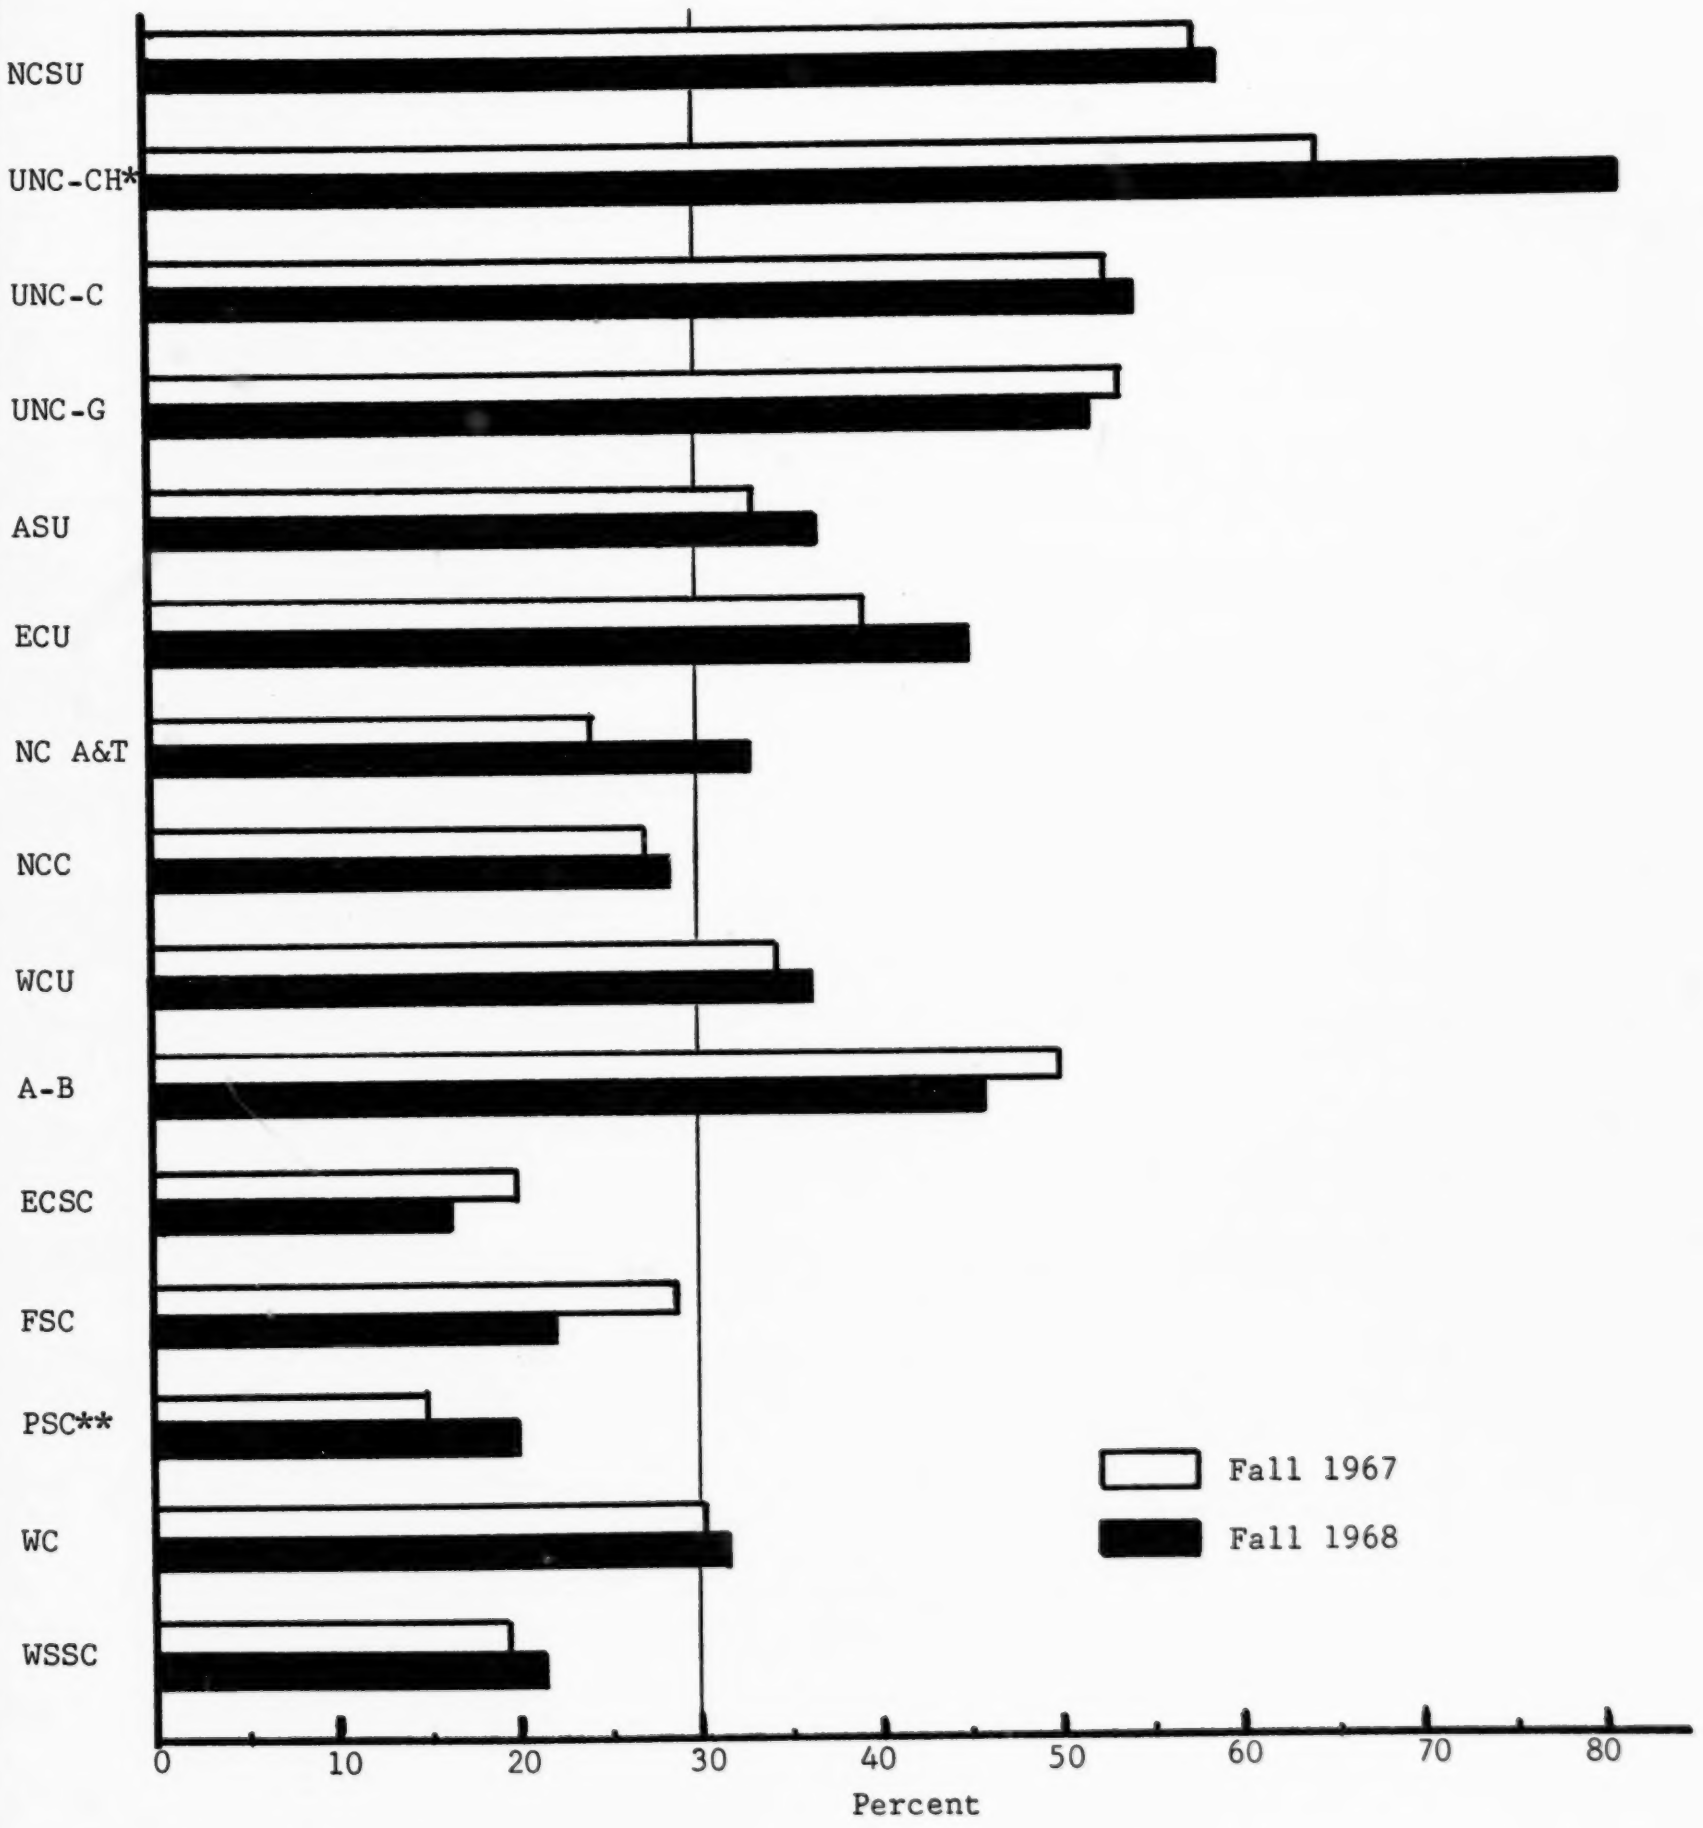

* Academic Affairs only.

** See footnote a/ in Table XXXVIII.

* Including Agricultural Experiment Station.
** Excluding N.C. School of the Arts.
*** Excluding medical school.
**** Excluding Bennett College, Duke University, High Point College, and Livingstone College.
[+] Excluding Academic Deans.
1/ New information received from the institution indicates that 31 out of 102 faculty members (excluding academic deans) hold the doctor's degree rather than 20 out of 100 as originally reported by the institution. This change in information was received too late to be incorporated in this table.

Instructor	9,613	7,690	7,314 - 10,000	7,690+
ALL RANKS	14,898	13,292	10,080 - 16,500	7,690 - 18,658

* Excluding Academic Deans.

** Excluding UNC-Chapel Hill (data not provided) and N.C. School of the Arts (classification of faculty not comparable with others).

*** Twenty-five of 28 private senior institutions are included. Not included are Bennett College, High Point College and Livingstone College. Medical schools at Duke University and Wake Forest University are also not included.

\+ No range given since the figure pertains to only one institution.

SECTION VI

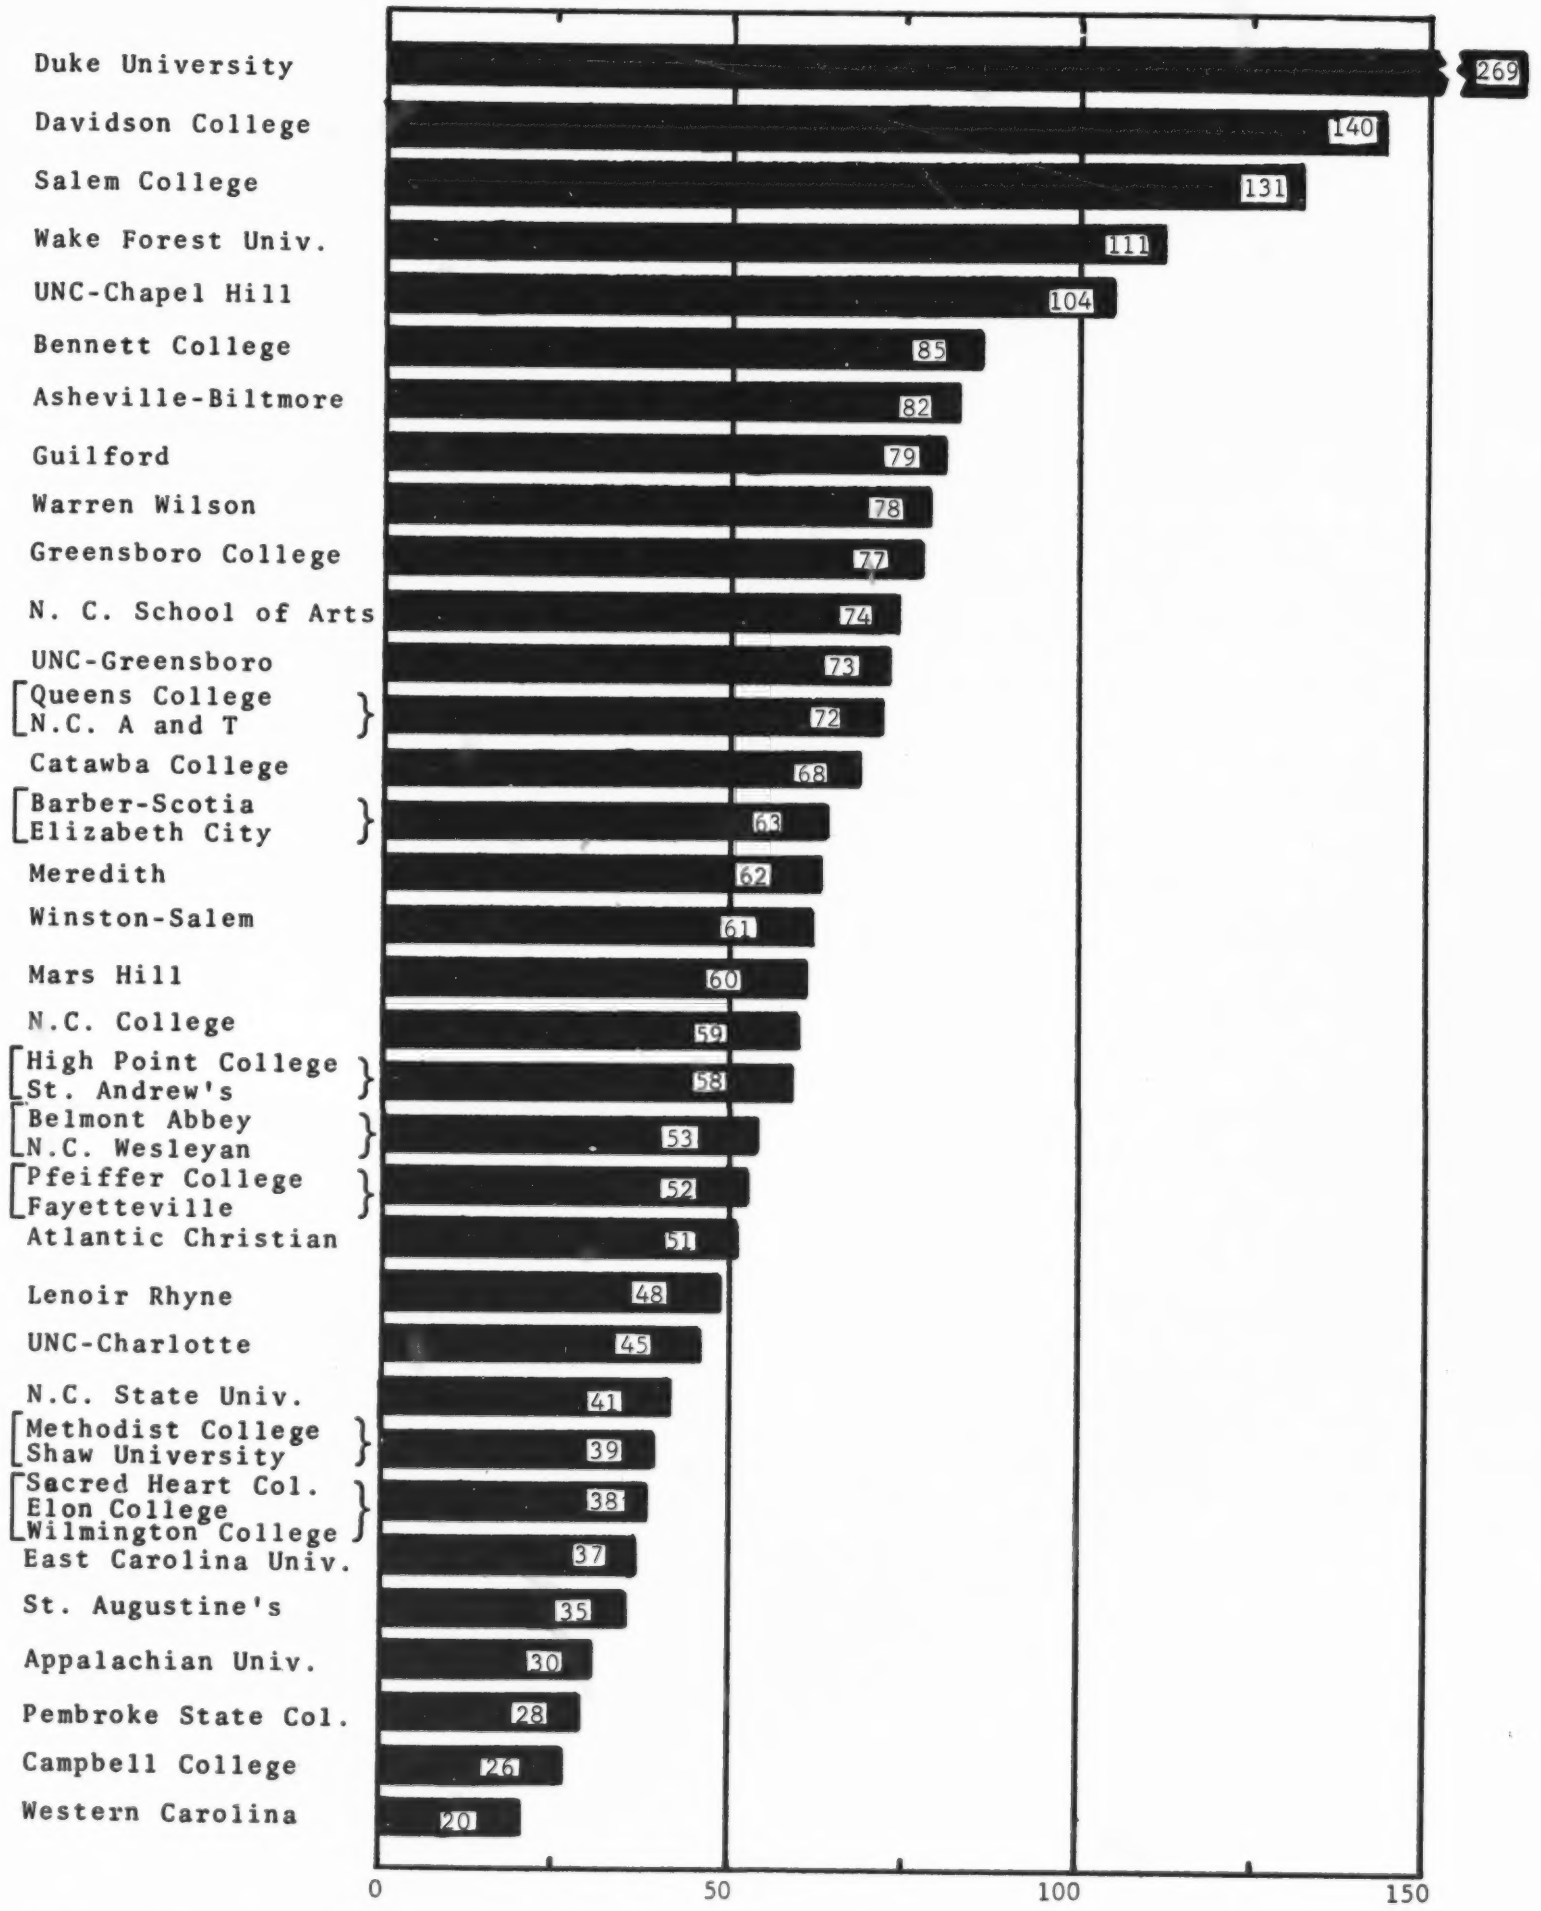
LIBRARY RESOURCES

This section provides information concerning college and university library resources, 1967-68. For statistical purposes, a bound volume is defined as a physical unit of any printed, typewritten, handwritten, mimeographed, or processed work contained in one binding or portfolio, hardbound or paperbound, which has been classified, catalogued, or otherwise prepared for use. This includes bound periodical volumes and all nonperiodical government documents.

The number of bound volumes, other resources, and interlibrary transactions are shown in Table XLIII. Data are presented for public senior, private senior, and private junior colleges. The number of bound volumes as of June 30, 1967 may differ at some institutions from the figure given in the Board publication, Statistical Abstract of Higher Education in North Carolina, 1967-68 (April 1968), due to the more recent inventory of library resources.

Table XLIV shows the number of bound volumes per full-time equivalent student at each institution. The same information is graphically illustrated in Figure 11. The number of bound volumes per full-time equivalent student at private senior institutions (106.9) is almost double the number held by public senior institutions (59.2).

Figure 11. Number of Bound Volumes Per Full-Time Equivalent Student in North Carolina Public and Private Senior Colleges and Universities, 1968



NOTE: Does not include J.C. Smith University and Livingstone College.

SECTION VII

EXTENSION ACTIVITIES

This section describes extension activities at seven public senior institutions. These institutions are the Chapel Hill, Greensboro, and Raleigh campuses of the University of North Carolina and four regional universities, Appalachian State, East Carolina, North Carolina Agricultural and Technical State, and Western Carolina.* All of these institutions are on a semester basis except Appalachian, East Carolina, and Western Carolina, which are on a quarter basis.

Even though extension is not defined uniformly in all institutions, an attempt has been made to collect comparable statistics. In consultation with extension directors at public senior institutions, the Board staff developed definitions of extension activities. These definitions are listed in Appendix B. Extension activities are classified into two broad categories: credit extension and non-credit extension.

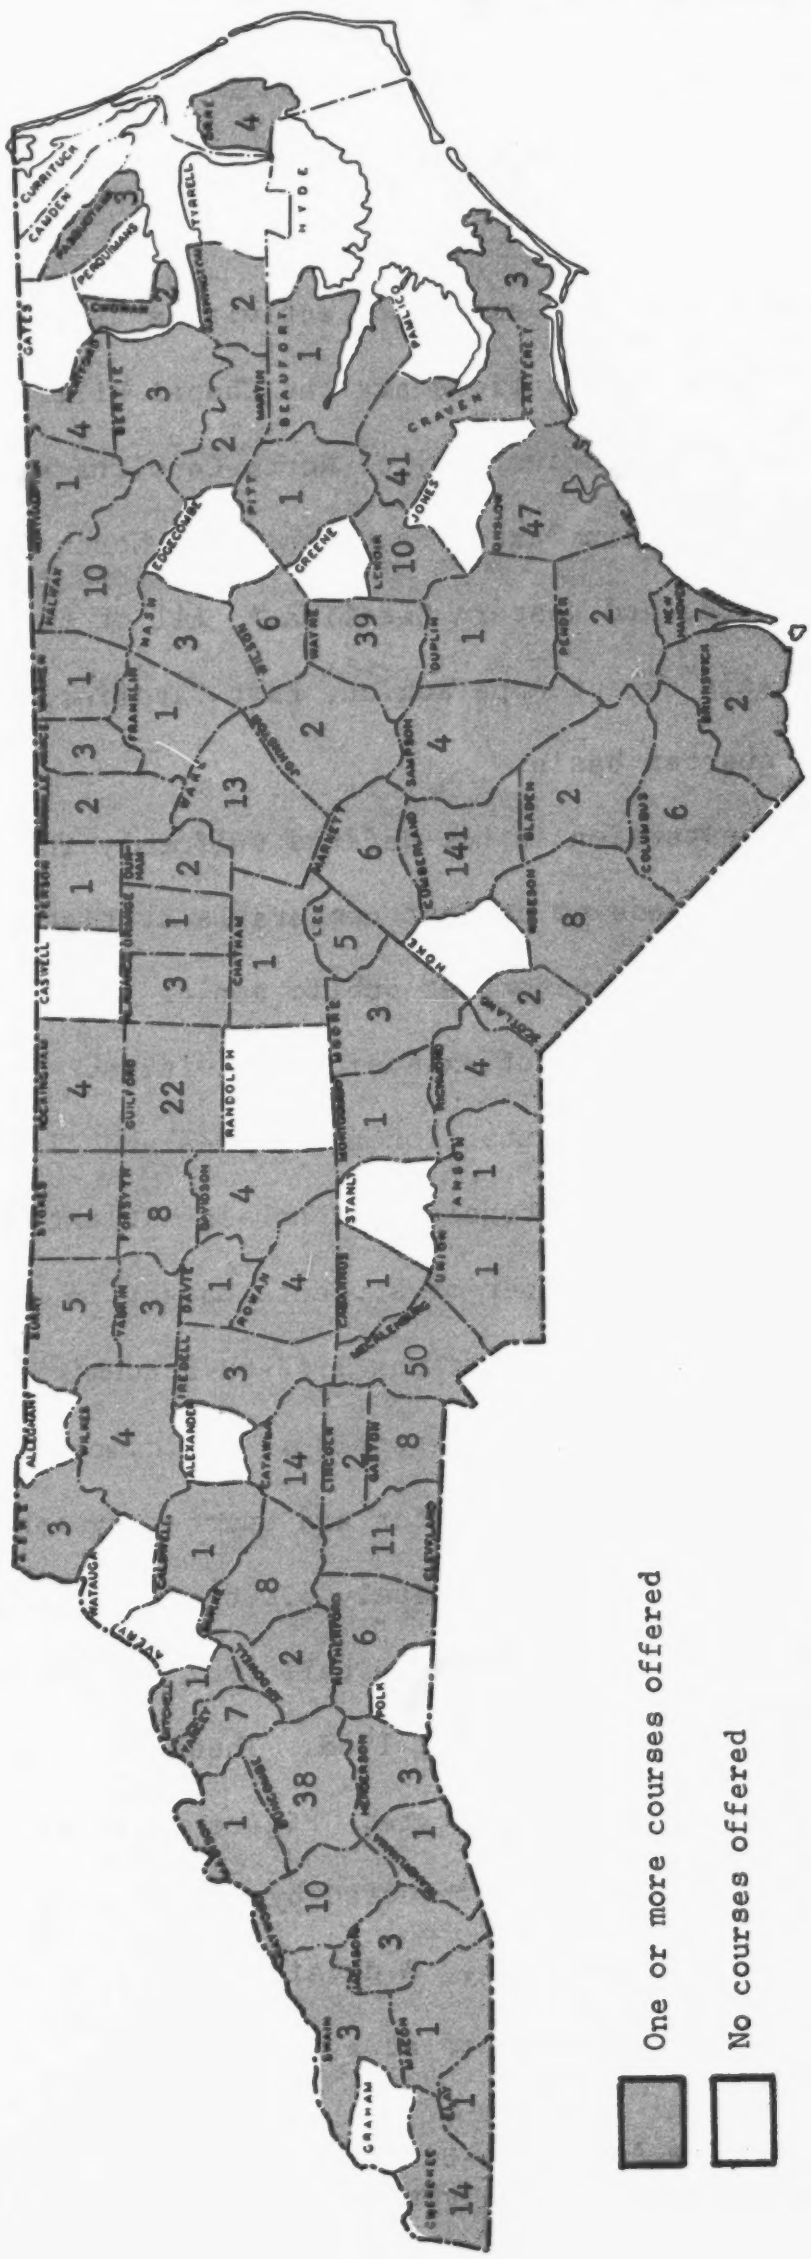
Table XLV shows the number of students taught in credit extension in public senior institutions during the 1967-68 academic year. Table XLVI gives information on non-credit extension. Any comparison should consider the difference between semester and quarter systems.

Table XLV shows that approximately 6,000 off-campus students were taught in credit extension courses in fall 1967 and almost the same number of students in spring and summer of 1968. These off-campus courses were taught in many locations in the state. Figure 12 shows the counties where off-campus credit courses were conducted by public senior institutions during the 1967-68 academic year. A detailed analysis of off-campus credit extension will be published at a later date.

---

*Not included are Asheville-Biltmore, Elizabeth City, and Winston-Salem, which offer extension activities to a limited number of students.

Figure 12. Location and Number of Off-Campus Credit Courses* Offered by North Carolina Public Senior Colleges and Universities, 1967-68



One or more courses offered

No courses offered

* Including military centers.

NOTE: The figure in each county represents total number of courses offered.

SECTION VIII

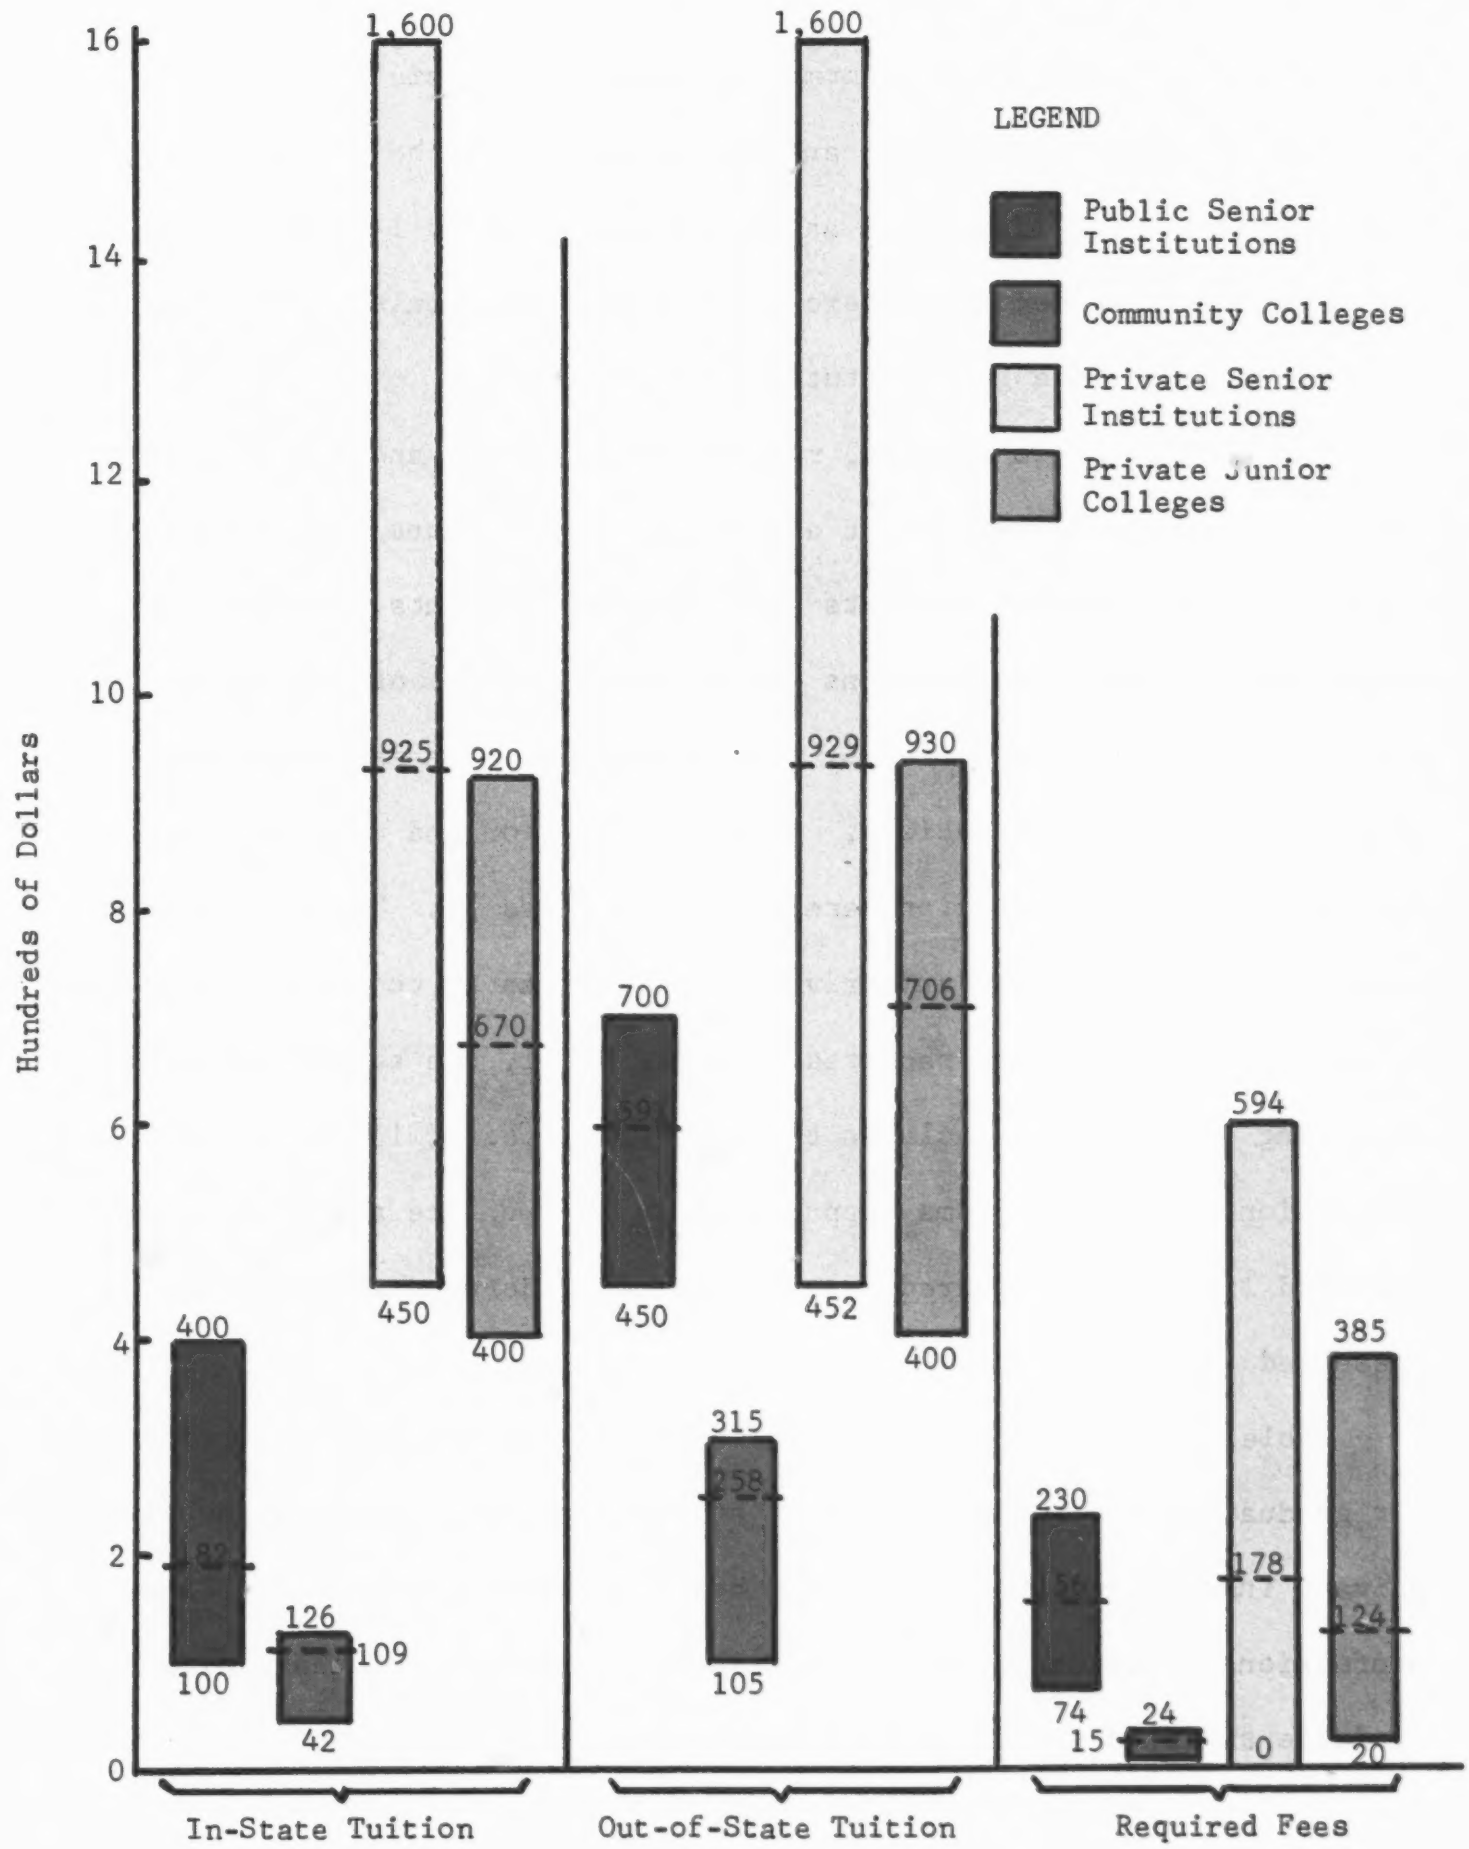
STUDENT COSTS

This section provides information concerning basic student costs at all North Carolina colleges and universities for the 1967-68 academic year. The cost is figured on an annual basis for full-time students for the regular academic year excluding summer session(s). The figures reflect data provided by institutions to the Board.

Table XLVII shows tuition, required fees, room, and board by institution. The rate of tuition at all public institutions is considerably higher for out-of-state students than in-state students. With a few exceptions, private institutions charge the same rate of tuition to in-state and out-of-state students. In general, tuition is considerably higher at private institutions. Ranges of tuition and required fees at various types of institutions are shown in Figure 13. There is little variation between public and private institutions in room and board charges. In addition to the costs reported in Table XLVII, the total cost of attending college also includes the cost of clothing, laundry, travel, recreation, and other items (approximately $500 on the average). The detailed listing of required fees charged to undergraduate students is presented in Table XLVIII.

Tables XLIX and L provide information on tuition and required fees for graduate and first professional students, respectively, at public and private institutions. The room and board cost for graduate and first professional students does not substantially differ from that for undergraduate students presented in the previous table.

Figure 13. Ranges of Tuition and Required Fees Charged to Students in North Carolina Colleges and Universities, 1968-69



NOTE: Dotted lines represent averages.

SECTION IX

ADMISSIONS AND FINANCIAL AID

This section presents information concerning the academic ability of entering freshmen (as measured by tests) and financial aid to the students at public senior institutions.

Table LI shows the average Scholastic Aptitude Test (SAT) scores of entering freshmen from 1962 to 1968. The average score has steadily increased at most of the institutions. The increase is especially outstanding among the institutions which had traditionally lower average scores as indicated by Figure 14. Institutional combined averages (verbal and math) of SAT scores ranged from 696 to 1,155 in fall 1968. The frequency distribution of SAT scores by institution is given in Table LII. In general, mean scores are higher than median scores. Table LIII shows the high school class rank of entering freshmen in fall 1968.

Information concerning student financial aid at public senior institutions during the 12-month period ending June 30, 1968 is summarized in Table LIV. A total of 11,710 non-athletic scholarships (grants and awards) amounting to $6,528,897 were awarded. Student jobs totaled 13,819 in number and paid $3,358,959. Student loans to 10,218 students totaled $3,634,988. Total student financial aid for all purposes came to approximately $18.3 million in the year ending June 30, 1968. As of that date, loans to 25,005 students in the amount of $14,446,262 were outstanding.

SECTION X

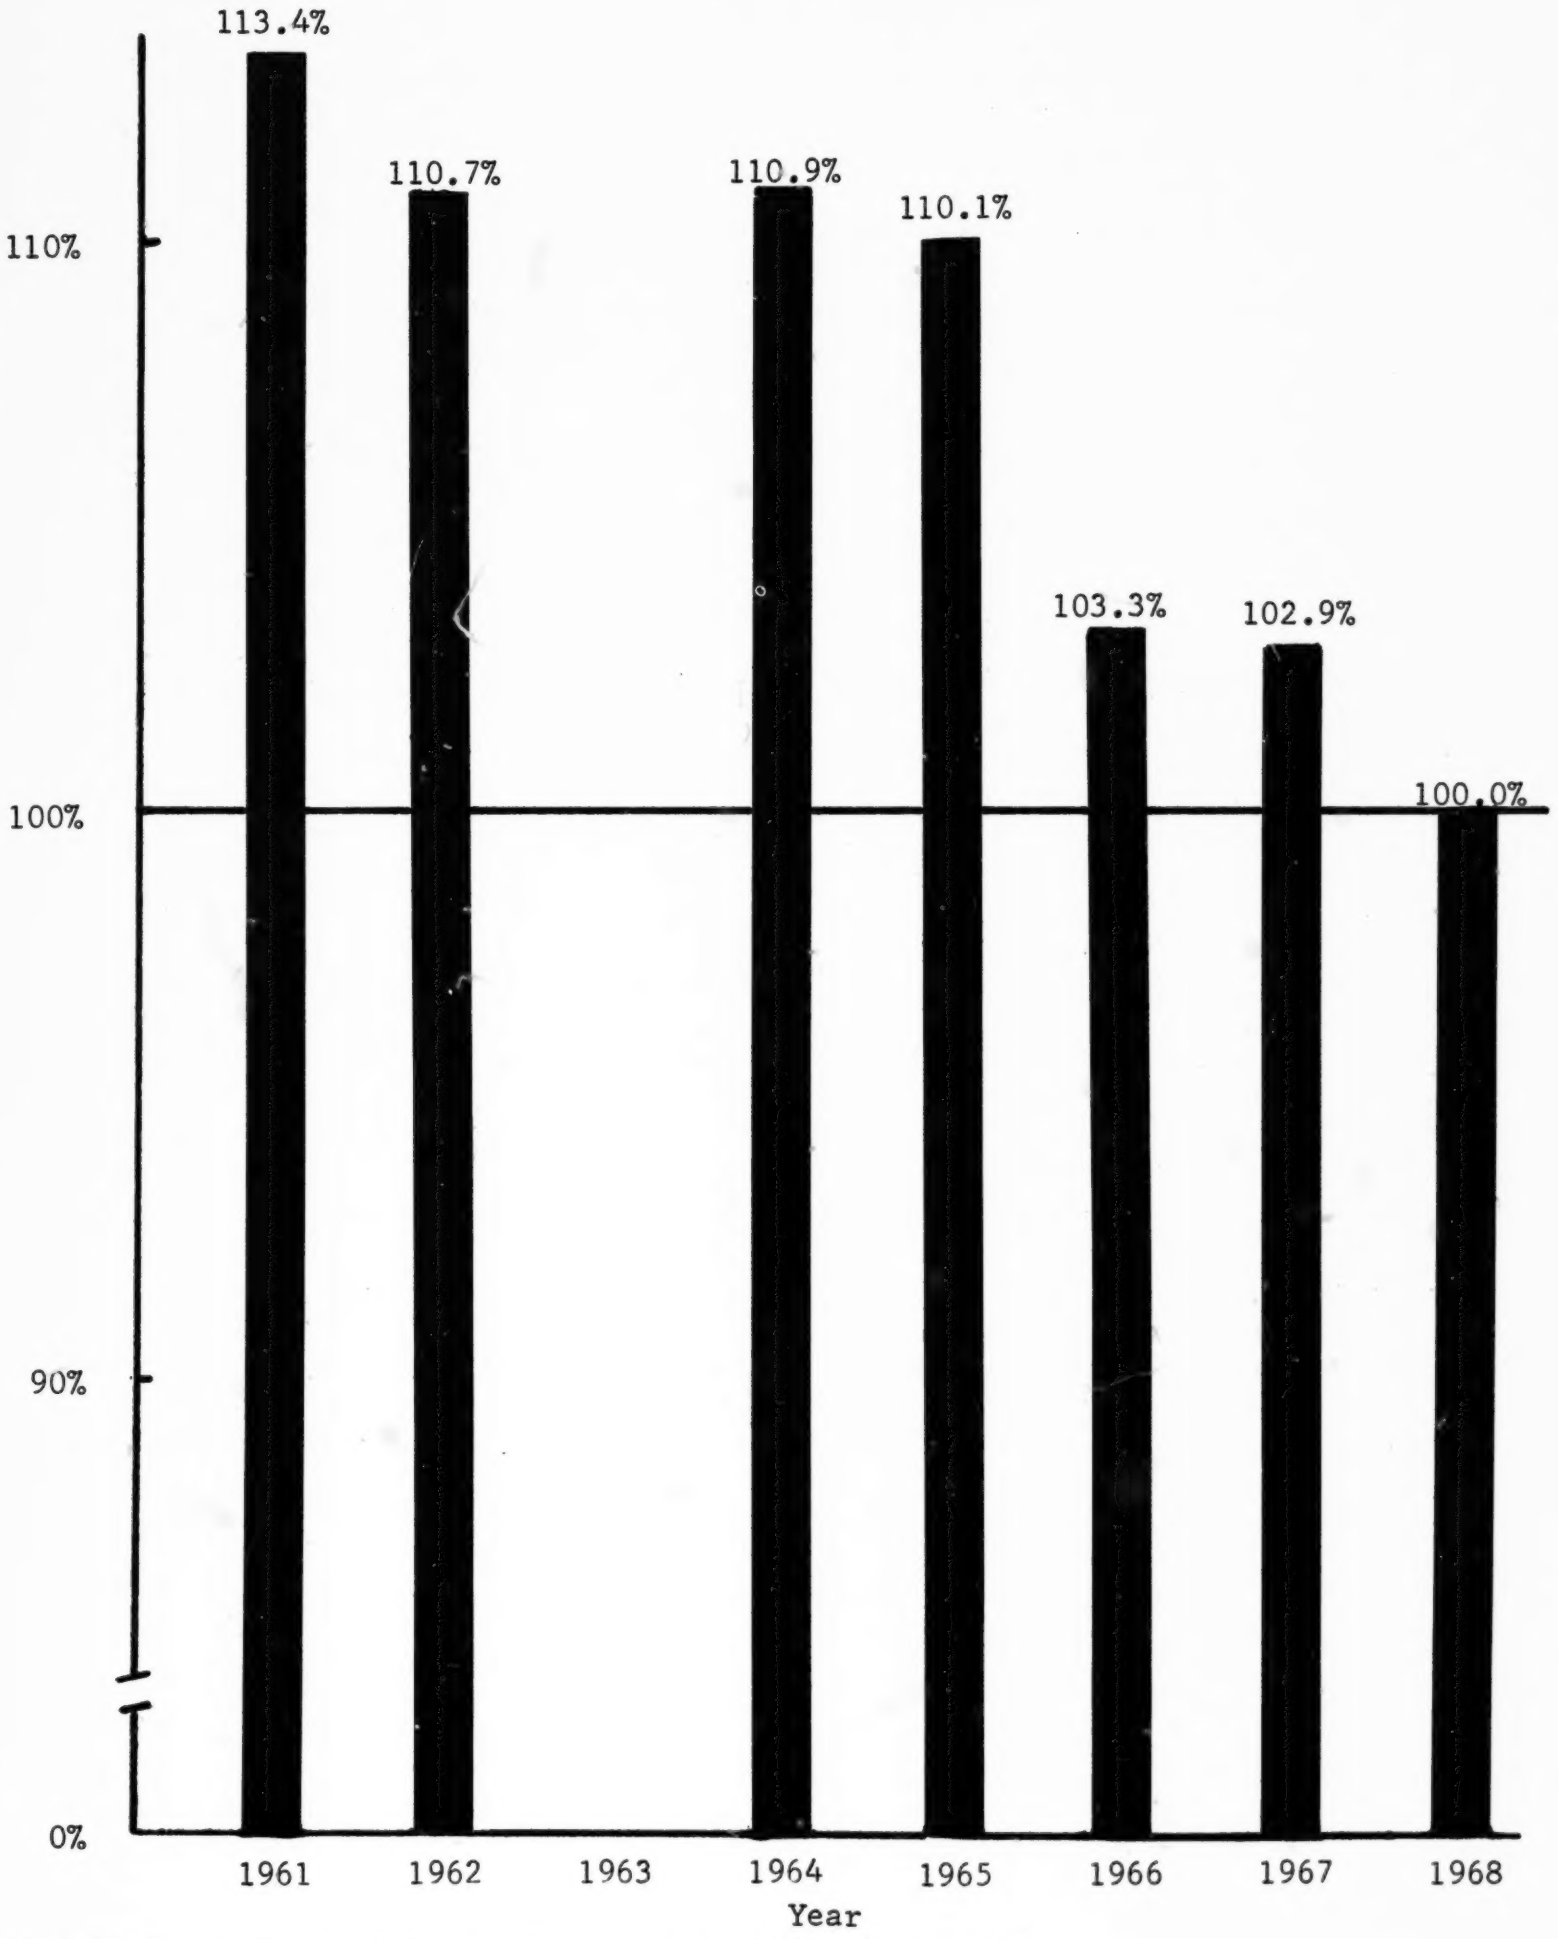
STUDENT HOUSING

The upsurge in college enrollment in the late 1950's and early 1960's resulted in a shortage of dormitory facilities on many college campuses. This section is intended to present pertinent information on the student housing situation in public senior institutions in North Carolina.

General trends in dormitory facilities and their utilization are shown in Figure 15 and Table LV. In fall 1961 occupancy of dormitories in the public senior institutions was 13 percent above normal capacity. Severe overcrowding continued until 1966 when occupancy in dormitories dropped to 3 percent above capacity. In fall 1968 the overcrowding completely disappeared. Enrollment housed in dormitories decreased from 69.4 percent in 1960 to 49.5 percent in 1965. During the past four years the proportion of enrollment housed in dormitories has been stable at the 50 percent level.

Latest information on student housing is shown in Table LVI. Although the public senior institutions as a whole do not show over-utilization of dormitories, some institutions still have overcrowded dormitories. Forty-nine percent of the students enrolled in public senior institutions live in dormitories, 24 percent in privately-owned housing, 23 percent in their own homes, 3 percent in fraternity or sorority houses, and the remainder in married student housing or other college-owned housing.

Figure 15. Percent of Dormitory Utilization in North Carolina Public Senior Colleges and Universities,* 1961-1968



* Excluding N. C. School of Arts and military centers.

* Includes 985 students housed in privately owned dormitories (Granville East & West).
** Includes 427 students in evening college and 461 in graduate centers.
*** Includes students in private housing in community.
**** Includes high school students.

SECTION XI

FINANCIAL STATISTICS

This section provides financial data on public and private senior colleges and universities in North Carolina. Data are for fiscal year 1967-68, the ending date of which is June 30 for public institutions and of which varies among private institutions.

Table LVII presents current funds revenue by source for each institution. The total revenue from all sources in public senior institutions amounted to $212 million in fiscal year 1967-68. This represents a 16 percent increase over the total revenue of $182 million in fiscal year 1966-67. This increase by source is shown in Figure 16.

While 26 percent of the total funds revenue in private senior institutions was from student tuition and fees, only 10 percent of the total revenue in public senior institutions came from tuition and fees.

Table LVIII shows current funds expenditures by function for each institution. The total expenditures for all functions in public senior institutions amounted to $205 million in fiscal year 1967-68. This total is compared by function with the previous year's expenditures in Figure 17.

SOURCES OF DATA

The basic data used in this publication were provided by North Carolina colleges and universities in annual reporting forms of the Board of Higher Education (BHE) and Higher Education General Information Survey forms (HEGIS) of the United States Office of Education. The sources of basic data for each section are listed below.

SECTION I. CURRENT ENROLLMENT

BHE A-1 Comprehensive Report on Fall Enrollment, 1968
Part I. Resident-Credit Enrollment, Fall 1968
Part III. "Home Base" of Students, Fall 1968

BHE (Suppl. 2) Enrollment in Third Trimester, Fourth Quarter, or Summer Session(s): 1968

HEGIS OE 2300-2.5 Students Enrolled for Advanced Degrees, Fall 1968

SECTION II. ENROLLMENT TRENDS

Historical enrollment data accumulated at Board of Higher Education.

SECTION III. UNDERGRADUATE TRANSFERS

BHE A-1 Part II. New Transfer Students

SECTION IV. DEGREES CONFERRED

HEGIS OE 2300-2.1 Degrees and Other Formal Awards Conferred Between July 1, 1967 and June 30, 1968

SECTION V. FACULTY AND STAFF

BHE A-5 Employees in Institutions of Higher Education, Fall 1968

SECTION VI. LIBRARY RESOURCES

HEGIS OE 2300-5 Library Collection, Staff, Expenditures, and Salaries

SECTION VII. EXTENSION ACTIVITIES

BHE A-8 Report on Extension Activities for Twelve-Month Period Ending June 30, 1968 (public senior institutions only)

SECTION VIII. STUDENT COSTS

BHE A-3 Student Tuition, Fees and Charges for the Academic Year 1968-69

SECTION IX. ADMISSIONS AND FINANCIAL AID

BHE A-4 Admission Requirements and Practices as of October 1, 1968 (public senior institutions only)

BHE A-10 Student Financial Aid for Twelve-Month Period Ending June 30, 1968 (public senior institutions only)

SECTION X. STUDENT HOUSING

BHE A-2 Student Housing Report as of October 1, 1968 (public senior institutions only)

SECTION XI. FINANCIAL STATISTICS

HEGIS OE 2300-4 Financial Statistics of Institutions of Higher Education

APPENDIX B

DEFINITIONS OF TERMS

The definitions below are intended to facilitate the better understanding of information presented in this report. These are selected from the Board's reporting forms and the U.S. Office of Education's Higher Education General Information Survey forms. Some specific definitions appear as footnotes in appropriate tables.

1. ENROLLMENT, unless otherwise noted, refers to the head-count resident-credit enrollment. The resident-credit enrollment includes full-time and part-time students enrolled in courses basic to or creditable to a bachelor's or higher degree. This excludes students in extension, correspondence, adult education, audited courses, short courses, and those enrolled for individual lessons only.

   Undergraduate includes students who have not completed a full four-year program or its equivalent and also students in a five-year bachelor's program. This classification includes students in junior and community colleges in programs transferable to four-year institutions.

   First Professional includes students who are in a professional school or program (law, medicine, dentistry, theology, etc.) which requires at least two or more academic years of previous college work for entrance.

   Graduate includes students who have attained at least one standard bachelor's degree or first professional degree and who are or might be a candidate for a master's or doctor's degree.

   Entering Freshmen include new students who have no college credits prior to the immediately previous summer sessions.

   Full-time Student includes students enrolled in credits equal to at least 75 percent of the normal full-time load. Normal full-time load is the number of credit hours required for graduation divided by the number of semesters or terms normally required for graduation.

   Part-time Student includes students enrolled for less than 75 percent of the normal full-time load.

   F.T.E. (Full-time Equivalent) of Part-time Students is the total number of credit hours of part-time students divided by the normal full-time load. Recognition is made of variations in full-time load for different program levels.

   In-state Students are those whose legal residence, as determined at the institution, is in North Carolina.

Out-of-State Students are those whose legal residence, as determined at the institution, is in a state other than North Carolina or in a foreign country.

2. TRANSFER refers to students transferring to North Carolina institutions who have college credits from other institutions in a previous regular session(s). A former student transferring back to his original institution after attendance at another institution is not classified as a transfer.

3. DEGREES in this report refer to earned degrees conferred (not honorary). Specifically the following degrees are included:

Bachelor's Degree requires successful completion of at least four but not more than five years of academic work.

First Professional Degree signifies the completion of the academic requirements for a selected profession, which is based on an educational program requiring at least two academic years of previous college work for entrance and which requires a total of at least six academic years of college work for completion. Examples of first professional degrees are the Bachelor of Laws (LL.B.), Doctor of Dental Surgery (D.D.S.), and Doctor of Medicine (M.D.) degrees.

Master's Degree is customarily granted upon successful completion of one (sometimes two) academic years of work beyond the bachelor's degree.

Doctor's Degree includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and the Doctor of Philosophy in any field.

4. FACULTY member refers to the professional personnel employed in colleges and universities who are primarily assigned to resident instruction and departmental or organized research. This does not include other professional personnel in library, auxiliary enterprises and public service activities.

5. EXTENSION ACTIVITY is defined in this report as any on- or off-campus instructional, research application, or public service activity sponsored by the reporting institution which is in addition to the regular on-campus instructional and research activities provided for the regularly enrolled, on-campus, degree candidate.

Credit Extension includes students in extension courses which are creditable toward a bachelor's or higher degree, an associate degree, a certificate, a diploma, or other formal award.

On-Campus Extension generally includes students enrolled in evening or weekend courses or special part-time students taking day classes offered by the extension division. When the extension division is not separated from the regular programs, this includes students who enrolled only in evening or weekend courses.

Off-Campus Extension includes students enrolled in off-campus extension courses, excluding military centers.

Military Centers: students enrolled in military centers.

Correspondence students are those taking one or more courses for credit toward a formal degree, by mail.

Television Courses: students taking television courses for credit.

Non-Credit Extension includes students in other than credit extension.

Adult Education includes adults enrolled in non-degree credit courses of regular length (or slightly shorter) which are designed for, or attended principally by, persons who have terminated their formal education.

Short Course refers to face-to-face, organized instruction in a specially designed course which lasts considerably less than the regular sessions but at least four separate days.

Other Types of Non-Credit Extension activities, if any, including courses offered by telecommunication media, conferences, and correspondence not for credit.
